## $sales@arleywholesale.com \cdot www.arleywholesale.com$

Arley Wholesale sources our products from numerous suppliers. You can identify the factory by code or name in our list of suppliers. In the Arley Evolution Tile Design App you can mix different items from different suppliers, but if you do so on a real installation there might be calibration and sizing issues. Please be aware of this and check with an Arley representative before ordering products from different suppliers as per app example.\(\n\)\nThe pictures and designs in the Arley App are to be used as suggestions of how the consumer's project will look. There may be shade variation in the product you receive and all products should be approved by the consumer before installation. Installation of the product constitutes acceptance and no claims will be honored for wrong product, sizing or dye lot issues after installation.
